Contents of Volume 137

Research Articles

K.T. Jensen and L.D. Kristensen (Denmark)
A field experiment on competition between *Corophium volutator* (Pallas) and *Corophium arenarium* Crawford (Crustacea: Amphipoda): effects on survival, reproduction and recruitment 1

A.J. Underwood and G. Barrett (Australia)
Experiments on the influence of oysters on the distribution, abundance and sizes of the gastropod *Bembicium auratum* in a mangrove swamp in New South Wales, Australia 25

D. Liszka and A.J. Underwood (Australia)
An experimental design to determine preferences for gastropod shells by a hermit-crab 47

B.C. Clarke and C.L. Griffiths (South Africa)
Ecological energetics of mussels *Choromytilus meridionalis* under simulated intertidal rock pool conditions 63

M.W. Luckenbach and R.J. Orth (USA)
A chemical defense in Crustacea? 79

S.M. Bollens and B.W. Frost (USA)
UV light and vertical distribution of the marine planktonic copepod *Acartia hudsonica* Pinhey 89

J.R. Marsden and J. Meeuwig (Barbados, Canada)
Preferences of planktrotrophic larvae of the tropical serpulid *Spirobranchus giganteus* (Pallas) for exudates of corals from a Barbados reef 95

P.J. Cranford and J. Grant (Canada)
Particle clearance and absorption of phytoplankton and detritus by the sea scallop *Placopecten magellanicus* (Gmelin) 105

G.J. Pierce, J.S.W. Diack and P.R. Poyle (UK)
Application of serological methods to identification of fish prey in diets of seals and dolphins 123

D.J. Barnes and J.M. Lough (Australia)
Computer simulations showing the likely effects of calix architecture and other factors on retrieval of density information from coral skeletons 141

A.H. Williams, L.D. Coen and M.S. Stoelting (USA)
Seasonal abundance, distribution, and habitat selection of juvenile *Callinectes sapidus* (Rathbun) in the northern Gulf of Mexico 165

L. Mizrahi and Y. Achituv (Israel)
Seasonal changes in body weight and biochemical components of Mediterranean *Chthalamus stellatus* (Poli) and *Eurapthia depressa* (Poli) 185

G.J. Edgar (Australia)
The use of the size structure of benthic macrofaunal communities of estimate faunal biomass and secondary production 195

G.J. Edgar (Australia)
The influence of plant structure on the species richness, biomass and secondary production of macrofaunal assemblages associated with Western Australian seagrass beds 215
